INTRODUCTION

The 2001-02 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1, 2001 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

The services or Programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items or activities in order to distinguish between their different functions. This program/activity structure permits the Legislature to be more specific in appropriating funds to particular services. Within each activity, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vi).

For comparative purposes, Estimates and Actual amounts for prior years are provided on program summary and activity summary pages. These amounts are restated to provided comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred.

A reconciliation statement is shown on each Ministry's program summary page to relate previously published Estimates and Public Accounts actuals to any restated amounts.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

Reconciliation of Estimates Expenditure to Budget Expenditure

The 2001-02 Budget has been prepared on the accrual and consolidation basis. To facilitate linking the Estimates, which are prepared on the modified cash basis, to the Budget, reconciliations which identify the major differences between the Estimates expenditure and Budget expenditure have been included for each ministry.

Under accrual accounting, expenses are included when goods and services are delivered, rather than when payment is made, which may occur in a different period. Other adjustments and provisions are made for items such as loan losses and severance costs, based on an estimate of potential future outlays. Under modified cash accounting, these are only recorded when a loan is forgiven or there is a cash impact.

Under consolidation accounting, the total expenses incurred by government agencies are reported, rather than just the portion funded by government (i.e. through transfer payments). The activities of government service organizations are included in government expenses, whereas the activities of government enterprises are not included in expenses, but instead are part of "Net Income from Government Enterprises", which is reported as a revenue item.

EXPLANATORY NOTES

NOTE: Expenditure is forecast for the fiscal year 2001-02 under eight Standard Accounts at the activity level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

Salaries and Wages

Includes salaries and wages, overtime and other remuneration paid to regular, probationary, unclassified and other staff; temporary help costs; indemnities and allowances paid to Members of the Legislative Assembly; and special allowances paid to employees.

Employee Benefits

Includes the government's contribution as an employer to the Canada Pension Plan; the Public Service Pension Fund; Employment Insurance; the Workplace Safety and Insurance Board; and other employee benefit plans.

Transportation and Communication

Includes travelling expenses of employees on government business and recipients of government services, such as wards of the province; relocation expenses of employees who transferred or recruited; expenses of moving office furniture and equipment; costs of transportation of goods other than for initial delivery; mailing costs, such as postage and registration; and communication costs, such as a telephone and data communications.

Services

Includes information services, such as, advertising and communication services provided by professional agencies and advertising placed directly with the media; rental and purchased repair and maintenance of machinery, equipment, buildings, land and engineering structures; data processing services; insurance premiums; and other professional and special services.

Supplies and Equipment

Includes provision for the purchase of all machinery and equipment including motor vehicles and computers, both new and used; and the purchase of all materials, supplies and utilities.

Acquisition/Construction of Physical Assets

Includes all costs of acquisition and construction by contract of new and used buildings and engineering structures; and the cost of acquisition of land.

Transfer Payments

Includes grants, subsidies, assistance to persons; the business sector; non-commercial institutions; and other government bodies.

Other Transactions

Includes special transactions, such as interest incentives and subsidies; guarantees honoured; losses on loans; and repayable grants.

Note on Statutory Appropriations and Loans and Investments

Statutory Appropriations and Loans and Investments are not Standard Accounts. Amounts required for Statutory Appropriations and Loans and Investments are shown, where applicable, as separate entries under the Standard Accounts Classification details relating to each Activity.

Note on Cost-Recovery Activities

In cases where the anticipated recovery of costs of an activity is equal to or greater than the expenditures, the balance of the activity is shown at the nominal value of \$1,000. Recoveries in excess of expenditures, where these occur, will be added to general revenue.

CABINET OFFICE

SUMMARY

The Cabinet Office is the central agency which supports the Premier, Cabinet and its committees in their efforts to set the broad direction and priorities of the Government, and in the determination of its legislative program. It co-ordinates the government's policy initiatives and provides support to the Premier and Cabinet on Order-in-Council appointments, Premier's Correspondence, Freedom of Information requests and other administrative issues. The primary clients served by the Office are the Premier, Cabinet and other central agencies and line ministries; however, some functions (such as Orders-in-Council, Freedom of Information and Premier's Correspondence) have direct contact with the public.

The Cabinet Office also provides administrative/operational support to the Office of the Premier and for other organizational units not directly attached to ministries, such as the Office of the Government House Leader.

ALCOHOL AND GAMING MANAGEMENT PROGRAM :

This program establishes regulatory framework and sets and enforces standards in specific business sectors through the Alcohol and Gaming Commission of Ontario. It maintains a database of consumer complaints, inspects and investigates questionable business practices, and takes enforcement measures when necessary. It also serves a compelling need for consumer protection or standards in industries where the risks of criminal activity and potential social costs are high (e.g. casino gambling, beverage alcohol).

ELEMENTARY AND SECONDARY EDUCATION PROGRAM :

The program provides policy and program direction and financial support to elementary and secondary schools and agencies in Ontario in order to foster and sustain a high-quality education system for all students in this province, no matter where they live. The program aims to achieve three primary outcomes: excellence in student achievement; preparation of all students for success in further education, work, and community life; and improvement of Ontario's ability to compete in a global marketplace.

Key components of the program are: coordination of rigorous and demanding curriculum and instruction and challenging standards of achievement, provision of financial support to a streamlined and efficient education system with a focus on teaching and learning in the classroom, accountability for the funding of elementary and secondary education, and operation of provincial schools for the deaf, blind, deaf/blind and students with learning disabilities.

TAX POLICY, BUDGET AND REVENUE OPERATIONS PROGRAM :

This program has two components, Budget and Taxation Policy, and Tax Revenue. The Budget and Taxation Policy area advises and assists the Minister of Finance and the Government in formulating Ontario Budget policy including tax policy, tax design and legislation, federal-provincial finance policy and pension and income security policy; develops the Ontario Budget and other major economic/fiscal documents; manages the Province's taxation, intergovernmental finance and related policy development; co-ordinates research to identify broad economic taxation and fiscal implications of specific and emerging trends and developments.

The Tax Revenue area administers Ontario's tax statutes. The integrity of the province's self-assessment system is maintained by encouraging compliance through taxpayer information services and independent objections review, while discouraging non-compliance and tax evasion through collection activities, audits and investigations. The program also administers various tax credits and grant programs.

The focus of the program is to protect public interest and hence public confidence and create the business climate which increases Ontario's domestic and international competitiveness. In addition, this program provides for the administration of the Motor Vehicle Accident Claims Act in respect of adjustment claims and payment of damages occasioned by the operation of stolen, unidentified or uninsured motor vehicles. Securities regulation in Ontario is performed by the Ontario Securities Commission (OSC). On November 1, 1997, the OSC became a self-funding agency, financing its operations through retention of its fee revenues.

LABOUR RELATIONS PROGRAM :

The role of Labour Relations is to promote a stable labour relations climate and harmonious workplace relationships in the Province.

The Ontario Labour Relations Board (OLRB) is an independent, quasi-judicial tribunal which mediates and adjudicates employment and labour relation-related matters under various Ontario statutes. In the labour relations area the Board is responsible for: certification of trade unions; review of unfair labour practice applications, illegal strikes and lock-outs; and termination of bargaining rights. The Board also generally ensures minimum workplace standards through the review of decisions of employment standards officers and occupational health and safety inspectors, as well as mediating and arbitrating other disputes with a view to promoting safe, fair and harmonious conditions in Ontario's workplaces.

The two statutory tribunals comprising the Public Service Appeals Boards are independent quasi-judicial tribunals that oversee the labour relations of Ontario Crown employees. They include the Crown Employees Grievance Settlement Board and the Public Service Grievance Board.

The Labour Management Services program provides neutral, third party assistance to trade unions and employers through collective agreement conciliation and mediation, appointment of arbitrators and collective bargaining information.

Its Mission is to ensure ecological sustainability by protecting and conserving our valuable soil, aquatic resources, forest and wildlife resources as well as their biological foundation. As stewards of our natural heritage, MNR's role is to ensure the continuing availability of natural resources for the long-term benefit of the people of Ontario, that is, to leave future generations a legacy of the natural wealth that we still enjoy today; to protect natural heritage and biological features of provincial significance; to protect human life, the resource base and physical property from the threats of forest fires, floods and erosion.

NATURAL RESOURCE MANAGEMENT PROGRAM :

The Natural Resource Management Program strives to achieve a balance between natural resource use and protection, to ensure the recognition of a broad range of natural resource values, and to develop mechanisms for open decision-making and program delivery. The major program areas are: forest management, fish and wildlife management, Crown lands and water management and Ontario Parks (i.e. provincial parks and other protected areas). This mandate also includes the implementation of Ontario's Living Legacy and the management of non-renewable resources such as aggregates, natural gas, petroleum and brine (i.e. salt). The Ministry's infrastructure (i.e. capital) activities rest largely within this program area.

TRANSPORTATION POLICY AND PLANNING PROGRAM :

Transportation Policy and Planning (TP&P) focuses on policies and planning that promote economic competitiveness through a safe, efficient and reliable multi-modal transportation system. To achieve this, the division sets strategic policy directions for the ministry as part of integrated long-term planning and works to enable a supportive policy and regulatory environment.

TP&P engages stakeholders and other jurisdictions to plan, support and enhance an integrated transportation system that promotes efficiency, safety and economic competitiveness. It seeks opportunities to foster new partnerships with federal and municipal sectors to reinforce principles of local services realignment. To support our transportation policy and planning activities, the division monitors, interprets and communicates social, economic and demographic trends.

TP&P pursues innovative delivery options that promote private sector investment in transportation infrastructure. On an ongoing basis the division has managed the new relationship with 407 ETR. The division continues to identify opportunities to further partnerships to expand and enhance Ontario's multi-modal transportation system.

ROAD USER SAFETY PROGRAM :

This program's objective is to make Ontario's road users safer by developing road user safety programs. It also ensures efficiency in the delivery of its safety products and services.

The key safety responsibilities of this core business are to: set safety standards, policies and regulations for road users, carriers and vehicles; to inspect, monitor and enforce compliance with those standards; to test and licence drivers and vehicles; to educate road users about safe driving behaviours and government road user safety policies/legislation.

An additional responsibility is to manage and improve customer service by setting standards and monitoring performance of private sector partners, promoting government products at self service kiosks, managing transition of service delivery to Integrated Service Delivery for Individuals and the private and not for profit sectors and managing information on every driver, vehicle and commercial carrier in Ontario. The program is also responsible for facilitating the delivery of core programs for other ministries (i.e. Drive Clean , Family Responsibility Office).

PROVINCIAL HIGHWAYS MANAGEMENT PROGRAM :

This program oversees the maintenance and operation of the provincial highway network, and invests strategically in infrastructure to ensure the system is safe, efficient and useable and supports Ontario's transportation needs.

The program manages activities to preserve and protect the public investment in infrastructure. These include pre-contract planning, engineering and detailed design, highway rehabilitation, new construction and construction administration.

OMBUDSMAN ONTARIO

SUMMARY

The role and responsibilities of the Ombudsman are set out in the Ombudsman Act. The Ombudsman investigates and resolves complaints about the Provincial government, its agencies, boards, commissions or tribunals and recommends corrective action to be taken in those cases where the Ombudsman decides that there is substance to the complaint. These concerns may be raised by individuals or on the Ombudsman's own motion because of some action that has been taken or neglected to be taken by an official, or from some decision or recommendation which is alleged to be unfair, unreasonable or arbitrary.

The Ombudsman is an officer of the Legislature and is independent of both the political process and the bureaucracy. The Ombudsman submits an annual report to the Legislature and can issue special reports as appropriate. To ensure accessibility, six offices are located throughout the province, toll-free numbers are available to the public and corporate communications are designed to inform the public about the Ombudsman's services, with specific emphasis on those sectors of the public least likely to know about such services. All services are free to the public and information received is kept confidential.
